NEW WATER CONNECTION INSTALLATION

Standard Installation

- This section is to be completed by applicants who have completed the engineering assessment process and have opted to install a water connection at the specified property.
- The standard connection installation fee, covering labor and materials (excluding machinery and permit costs), is **\$701.50 including VAT**
- Upon receipt of this payment, TTV will coordinate with the applicant to schedule the installation.
- Please note that, every new connection is different and at times, materials may have to be ordered from overseas because we do not have enough in store for your new water connection. If there are delays, you will be informed at the earliest.
- If the engineering assessment determines that a branch main extension is required for the connection, additional fees will apply. TTV will inform the applicant of these costs before any additional work begins.

Declaration

I am authorized to submit this application on behalf of the legal property owner. By doing so, I acknowledge and agree to the terms and conditions of the customer agreement with To Tatou Vai, which are available on their website or can be provided in printed form upon request.
